Claims 1-18: Cancelled

19. (Currently Amended) A method for attaching a truck to a mating surface, wherein the truck and the mating surface having a plurality of corresponding mounting holes passing therethrough, the method comprising:

providing a truck mounting assembly, comprising:

a pair of removable fasteners each having a head and a threaded shaft; and

a body having a pair of spaced apart holes passing therethrough, wherein each

of the holes corresponds to a different one of the mounting holes of the

truck, is adapted to threadedly engage [receive] one of the removable fasteners;

positioning the truck against the mating surface such that the corresponding mounting

holes of the mating surface and the truck are aligned;

positioning the body of the truck mounting assembly against the truck, opposite the

mating surface, such that the pair of holes of the body are aligned with the corresponding mounting holes of the truck;

passing the threaded shaft [a portion] of each of the removable fasteners through the

corresponding mounting holes of the mating surface and the truck such that the head abuts the mating surface; and

threadedly engaging the threaded shaft of each of the removable fasteners with one of
the pair of spaced apart holes of the body, thereby attaching the truck to the
mating surface.
